Lubuntu Notes (for laptop use)

Apps:
- Discover
  - Bitwarden
  - Brave
    - Librewolf
  - Discord
  - FreeTube
  - Libre Office

Shortcut Keys (Chrultrabook)
- Show, Hide Main Menu: (Uncheck)
- Mute, Unmute Sound Volume: F8
- Decrease Sound Volume: F9
- Increase Sound Volume: F10
  - Screengrab: Ctrl + F5

Suspend Operations when Lid is Closed
- Go to "Power Management" settings
  - Go to "Lid" settings
    - Set both "On Battery" and "On AC" to suspend
  - Go to "Idle" settings
    - Set both "On Battery" and "On AC" to 30 minutes

To Enable Touchscreen Scrolling
- Go to "Keyboard and Mouse" Settings
  - Go to "Mouse and Touchpad"

To Enable Touchscreen Scrolling on Browser
- Getting the touchscreen to scroll on Firefox is a separate issue from the general touchscreen settings, requiring one code to be listed in the pam configuration file.
  - sudo nano /etc/security/pam_env.conf
  - MOZ_USE_XINPUT2 DEFAULT=1
    - Ctrl O to Save
      - [Enter]
    - Ctrl X to Exit

To Fix Audio Glitches
- Lubuntu's HTML5 media player glitches occasionally.
- You will need to open the alsa configuration file and add a debugger.
  - sudo nano /etc/modprobe.d/alsa-base.conf
  - options snd_sof sof_debug=1
    - Ctrl O to Save
      - [Enter]
    - Ctrl X to Exit
